Hyatt Regency Grand Cypress | Orlando, FL

6th Annual
 June 23-25, 2011

**JOINING FORCES AGAINST
 HEREDITARY CANCER**

PROGRAM DESCRIPTION

The Joining FORCEs Conference is an international conference that presents topics and research focused on hereditary breast and ovarian cancer syndrome. The conference is open to anyone concerned about hereditary cancer: breast and ovarian cancer survivors, high-risk individuals, people with a BRCA mutation or family history of cancer, patient advocates and health care providers who treat high-risk patients.

PROGRAM OBJECTIVES

This one-of-a-kind conference will provide:

Opportunities to learn the latest information about:

- Cancer risk, early detection & risk reduction options
- Risk-reducing surgery and reconstruction
- New treatments for BRCA-associated cancers
- How to discuss cancer risk with family members
- The meaning of uninformative genetic test results
- How exercise and nutrition can lower the risk for developing cancer or recurrence
- Fertility options for survivors and previvors
- Integrative and complementary medicine
- Managing surgical menopause
- BRCA in men
- Hereditary pancreatic cancer

Opportunities to learn skills for:

- Coping with hereditary cancer diagnosis or risk
- Making risk-management decisions
- Coping with body image and sexuality issues arising after cancer or surgery

Opportunities to network and share experiences with other people who are high-risk or affected by a BRCA mutation

Opportunities to hear about and enroll in hereditary cancer research studies

FOR GENETIC COUNSELORS

This event has been submitted to the National Society of Genetic Counselors (NSGC) for approval of Category 1 CEUs.

The American Board of Genetic Counseling (ABGC) accepts CEUs approved by NSGC for purposes of recertification.

Approval for the requested CEUs and Contact Hours is currently pending.
