

Dear Friend,

On September 30, 2006, 6:00p.m.-8:00p.m., **FORCE: Facing Our Risk of Cancer Empowered** will launch our signature *Passing of the Torch* event at Jamaica Pond Park in Boston. FORCE is the only national nonprofit organization for families affected by hereditary breast and ovarian cancer. Our organization provides support, resources, and services for these families.

The Second Annual Boston "*Passing of the Torch*" will highlight the connection between breast and ovarian cancer. There will be speakers and entertainment and the event highlight will be a ceremonial passing of a lighted torch from an ovarian cancer survivor to a breast cancer survivor, marking the transition from Ovarian Cancer Awareness Month to Breast Cancer Awareness Month. We are pre-selling luminaries to honor and remember those whose lives have been affected by these cancers.

Please join with FORCE at the *Passing of the Torch* event in Boston. Even if you cannot attend the event, by helping us sell luminaries or collecting donations you will help us raise awareness of hereditary breast and ovarian cancer in Boston and help FORCE save lives! Call (866)824-7475 for more information.

Thank you for your support.

Sincerely Yours,

Sue Friedman
Executive Director

Event is FREE!
Luminaries will be offered for sale. All proceeds will benefit FORCE.

Join FORCEs **against** hereditary **breast** and **ovarian** cancer

An event to raise awareness about the link between breast cancer and ovarian cancer.

Passing of the torch from ovarian cancer awareness month to breast cancer awareness month.
