

Facing Hereditary Cancer EMPOWERED

RESOURCES

YOU DON'T NEED TO FACE HEREDITARY CANCER ALONE. LET FORCE SUPPORT AND EMPOWER YOU!

FORCE connects people and families with Lynch syndrome or an inherited mutation in BRCA1/2, ATM, BRIP1, CHEK2, PALB2, PTEN, RAD51C/D and other genes with:

- Compassionate support
- Up-to-date information and navigation
- Relevant clinical trials

Subscribe to FORCE's monthly e-newsletter at FacingOurRisk.org/Subscribe.

EDUCATION

Information Library: FacingOurRisk.org

Visit our website, one of the largest collections of expert-reviewed hereditary cancer information, allowing individuals to quickly find a wealth of information that relates to them.

Joining FORCEs Conference: FacingOurRisk.org/Conference

Attend the largest gathering of its kind. Our conference attracts hereditary cancer survivors, individuals at high-risk for cancer, those with a strong family history of cancer, researchers and medical professionals.

Be Empowered Webinars: FacingOurRisk.org/Webinars

Watch our online webinars available live and on-demand. Our series features presentations by experts on topics of importance to our community.

Post Mastectomy Photo and Video Gallery: FacingOurRisk.org/Gallery

View our gallery of images and videos, submitted by our members, after their mastectomy and reconstruction.

XRAY Program: FacingOurRisk.org/XRAY

Read our XRAY reviews for reliable information about cancer research news.

Spanish Language Resources: FacingOurRisk.org/Spanish

Find information and resources provided in Spanish.

Learn to Spot Online Health Misinformation: FacingOurRisk.org/BOAST

Use this tool and quiz to help you learn which online health information is trustworthy.

RESEARCH

Find and Enroll in Research: FacingOurRisk.org/Research

Visit our research section to find research studies enrolling people like you.

Research Advocate Training Program: FacingOurRisk.org/Advocate

Help shape hereditary cancer research. Sign up to volunteer.

SUPPORT

Peer Navigation Program: FacingOurRisk.org/PNP

Get matched to a trained Peer Navigator volunteer who shares a similar experience as you for confidential 1:1 support.

Private Facebook Group: FacingOurRisk.org/Facebook

Connect with peers, ask questions and share your story with our growing community of individuals facing hereditary cancers.

Support Meetings and State Volunteers: FacingOurRisk.org/Calendar

Connect with state volunteers and meet others virtually on Zoom who understand the decisions you are facing in a safe, caring environment. Group meetings available: ATM, CHEK2, PALB2 and Other Mutations, Caregivers & Parents, Español, General Support, LGBTQIA+, Lynch Syndrome, Men, People of Color, Previvors, Survivors and Young Previvors.

Message Boards: FacingOurRisk.org/MessageBoards

Register for our forum where you can discuss topics online 24/7 with others in our community.

Insurance & Reimbursement: FacingOurRisk.org/Insurance

Learn about health insurance coverage and reimbursement. Get tips on insurance appeals and customizable appeal letters.

Financial Assistance: FacingOurRisk.org/FinancialAssistance

Find national resources and grant programs to help offset costs for healthcare services and more.

Find Healthcare Experts: FacingOurRisk.org/HealthcareProviders

Locate experts knowledgeable in cancer genetics, including genetic counselors, specialists, surgeons and more.

Volunteer for FORCE: FacingOurRisk.org/Volunteer

Help us raise awareness, provide support and advocate on behalf of the hereditary cancer community. Complete a volunteer application to learn more.

ADVOCACY

Public Policy: FacingOurRisk.org/PublicPolicy

Find information about FORCE's efforts to improve the landscape for our community.

Patient Advocate Leader Training Program: FacingOurRisk.org/PAL

Advocate for state and federal policy issues. Sign up to volunteer.

FORCE improves the lives of the millions of individuals and families facing hereditary cancer.
