

Facing Hereditary Cancer EMPOWERED

RESOURCES

YOU DON'T NEED TO FACE HEREDITARY CANCER ALONE. LET FORCE SUPPORT AND EMPOWER YOU!

FORCE improves the lives of the millions of individuals and families facing hereditary breast, ovarian, pancreatic, prostate, colorectal and endometrial cancers. Our community includes people with Lynch syndrome, a BRCA1, BRCA2, ATM, PALB2, CHEK2, PTEN or other inherited gene mutation linked to cancer.

We provide up-to-date, expert-reviewed information and resources that help people make informed medical decisions. FORCE serves as a champion, unifying the community and advocating for awareness, access to care and better treatment and prevention options.

Subscribe to FORCE's monthly e-Newsletter and find all the resources listed below at FacingOurRisk.org.

EDUCATION

Information Library: FacingOurRisk.org

Visit our website, one of the largest collections of expert-reviewed hereditary cancer information, including website portals allowing individuals to quickly find a wealth of information that relates to them.

Joining FORCEs Conference: FacingOurRisk.org/Conference

Attend the largest gathering of its kind. Our conference attracts hereditary cancer survivors, individuals at high-risk for cancer, those with a strong family history of cancer, researchers and medical professionals.

Be Empowered Webinars: FacingOurRisk.org/Webinars

Watch our online webinars available live and on-demand. Our series features presentations by experts on topics of importance to our community.

Post Mastectomy Photo and Video Gallery: FacingOurRisk.org/Gallery

View our gallery of images and videos, submitted by our members, after their mastectomy and reconstruction.

XRAY Program: FacingOurRisk.org/XRAY

Read our XRAY reviews for reliable information about cancer research news.

Spanish Language Resources: FacingOurRisk.org/Spanish

Find information and resources provided in Spanish.

Learn to Spot Online Health Misinformation: FacingOurRisk.org/BOAST

This tool and quiz helps you learn which online health information is trustworthy.

RESEARCH

Find and Enroll in Research: FacingOurRisk.org/Research

Visit our Featured Research Page and Search and Enroll Tool.

Research Advocate Training Program: FacingOurRisk.org/Advocate

Help shape hereditary cancer research. Sign up to volunteer.

SUPPORT

Peer Navigation Program: FacingOurRisk.org/PNP

Get matched to a trained Peer Navigator volunteer who shares a similar experience as you for confidential 1:1 personalized support and a free expert-reviewed resource guide.

Private Facebook Group: FacingOurRisk.org/Facebook

Connect with peers, ask questions and share your story with our growing community of individuals facing hereditary cancers.

Support Meetings: FacingOurRisk.org/Calendar

Connect with others to obtain resources, information and support. Zoom meetings are available for the FORCE community, ASL, Caregivers/Parents, Español, LGBTQIA+, Lynch Syndrome, Men, People of Color, Previvors, Survivors, Young Previvors and Young Survivors.

Message Boards: FacingOurRisk.org/MessageBoards

Register for our forum where you can discuss topics online 24/7 with other people who have faced similar hereditary cancer concerns.

Insurance & Paying for Care: FacingOurRisk.org/Insurance

Find information on insurance coverage and financial assistance for genetic services, risk management and cancer treatment.

Volunteer for FORCE: FacingOurRisk.org/Volunteer

Help us raise awareness, provide support and advocate on behalf of the hereditary cancer community. Complete a volunteer application to learn more.

ADVOCACY

Public Policy: FacingOurRisk.org/PublicPolicy

Find information about FORCE's efforts to improve the landscape for our community.

Patient Advocate Training Program: FacingOurRisk.org/Volunteer

Advocate for state and federal level policy issues. Sign up to volunteer.

FORCE improves the lives of the millions of individuals and families facing hereditary cancer.
